Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1-14, 17-48, and 51 rejected under 35 U.S.C. 102(b) as being anticipated by Kletschlka (US 6,443,926).

Kletschlka discloses an expandable balloon (38) having torque in the unexpanded states and three or more wings (Figures 7 and 7A) mounted on the inner shaft of a catheter assembly; the inner shaft (44) having a torque in the unexpanded state (figure 10); a stent (column 8, lines 1-4); and an other shaft (34) to which the inner shaft is tacked.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 15-17, 49 and 50 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kletschlka in view of Kletschlka.

Kletschlka discloses the claimed inventions except for the balloon member comprising a member selected from the group consisting of various copolymers. Kletschlka does not disclose expressly

disclose the balloon member comprising a member consisting of various copolymers. At the time the invention was made, it would have been an obvious matter of design choice to a person of ordinary skill in the art to make the balloon member out of one of the various copolymers because Applicant has not disclosed that any particular copolymer provides an advantage, is used for a particular purpose, or solves a stated problem. Furthermore, balloon members made of various copolymers are well-known in the art. Therefore, it would have been an obvious matter of design choice to modify Kletschlka to obtain the invention as specified in claims 15-17, 49 and 50.
